## TANK LINERS

Netafim supply a choice of tank liners, tailored to suit your specific size of tank and selected specially to match the requirements of the application. Liners that are suitable for chlorinated water, potable water, RO water, recycled and even dirty water are available. Special applications, where the water is chemically treated in a warm greenhouse, or applications where high UV and abrasion resistance are needed, can be catered for.

BUTYL LINER 0.75mm
